## Energy Rates & Rebates

### Residential Rates & Special Programs

#### Water Heating\*

**Off-Peak:** 4.7¢ per kWh

#### Space Heating\*

**Off-Peak:** 4.9¢ per kWh

(see [www.heatforlessnow.com](http://www.heatforlessnow.com) for more information)

#### **Interruptible Dual Fuel (IDF):**

**Summer Months** (June, July & August): 6.261¢ per kWh

**Other Months:** 5.309¢ per kWh

*\*Note: Wood does not qualify as a form of backup heating for any of CLP's EnergyWise special rate programs. IDF programs are subject to 400 hours of control per heating season (October 15 - April 15.) Your application for EnergyWise special rate programs must be filled out and on file at CLP before any special rate takes effect.*

*Additionally, special program rates can change in conjunction with the fluctuating energy market.*

#### Heat Pumps

Both Air-source and Ground-source heat pumps use either the dual fuel or general service rate, depending on if you install a back-up heating system. **Important note for all special program rates:** General service rates apply until back up fuel system is installed and operational. Contact your heating contractor for any equipment information.

#### General Service Rates

**Fixed Charge:** \$29 per month

**Summer Rate** (June, July & August): 11.917¢ per kWh

**Other Months:** 10.517¢ per kWh

#### Power Cost Adjustment (PCA)

A PCA may be assessed on all general service kWhs. If a PCA is assessed, the amount will vary, and will be used to offset the rising costs of providing electric service.

#### Wellspring Wind Power

75¢ per 100-kWh block.

#### Grid Access Charge

\$0.00 for the first 3.5 kW AC of distributed generation connected to CLP's distribution system. \$2.84 per kW AC thereafter, with a maximum of \$26 per month.

**Important Notice:** All rates are subject to change with little notice. Rebates are available while funds last. Please read your monthly PowerLines newsletter or visit [www.clpower.com](http://www.clpower.com) for details on special promotions.

### Residential Rebates & Incentives

**Certified HVAC Installed Central Air Conditioning:** \$50 for SEER 13, 14.5, 15 and 16+. **For a list of certified HVAC installers, see: [www.hvacreduction.net/gre/public\\_search.cfm](http://www.hvacreduction.net/gre/public_search.cfm).**

**Certified HVAC Installed Air Source Heat Pump (ASHP):** \$50 for SEER 13, \$480 for SEER 14.5, \$580 for SEER 15 and \$630 for SEER 16+. **For a list of certified HVAC installers, see: [www.hvacreduction.net/gre/public\\_search.cfm](http://www.hvacreduction.net/gre/public_search.cfm).**

**Qualified Central Air Conditioner/ASHP Tune-Up:** \$25.

**Ground Source Heat Pump (GSHP):** \$400 per ton.

**Mini Split Ductless ASHP:** \$300 with fossil fuel heating system, \$500 with electric heating system.

**Electric Thermal Storage (ETS) Water Heating:** \$400 for a controlled, high efficiency replacement of a non-controlled electric water heater, a controlled, high efficiency new construction electric water heater, or a conversion from 4-hour peak shave to ETS (must meet all requirements of the off-peak program.)

**Electric Thermal Storage (ETS) Space Heating:** \$50 per kW.

**Heat Pump Water Heater (HPWH):** \$500 for a conversion from general service electric and for new construction.

**Electronically Commutated Motor:** \$100.

**REPLACEMENT EnergyStar Rated Refrigerator or Freezer:** \$75 for replacement or harvest with proof of recycling.) CLP does not offer these rebates for new construction.

**Dehumidifiers:** \$25 for EnergyStar dehumidifier.

**EnergyStar Clothes Dryers:** \$75.

**WiFi Thermostats:** \$25.

**Replacement LED Yard Light:** \$30 per fixture.

**LED Home Light:** \$3 per bulb, not to exceed 50% of the purchase price. Limit 10 bulbs per year.

**CFL Home Light:** \$1 per bulb, not to exceed 50% of the purchase price. Limit 10 bulbs per year.

**LED Holiday Light:** \$2 per string, not to exceed 50% of the purchase price. Limit 10 strings per year.
