Energy Rates & Rebates

Residential Rates & Special Programs

Water Heating*

Off-Peak: 4.7¢ per kWh

Space Heating*

Off-Peak: 4.9¢ per kWh

(see www.steffes.com/ets for more information)

Interruptible Dual Fuel (IDF):

Summer Months (June, July & August): 6.261¢ per kWh

Other Months: 5.309¢ per kWh

**Note: Wood does not qualify as a form of backup heating for any of CLP's EnergyWise special rate programs. IDF programs are subject to 400 hours of control per heating season (October 15 - April 15.) Your application for EnergyWise special rate programs must be filled out and on file at CLP before any special rate takes effect. Additionally, special program rates can change in conjunction with the fluctuating energy market.*

ChargeWise - Electric Vehicle Charging

Off-Peak: 4.9¢ per kWh

Charge your electric vehicle for 8 evening hours. Must be metered separately.

Heat Pumps

Both Air-source and Ground-source heat pumps use either the dual fuel or general service rate, depending on if you install a back-up heating system. **Important note for all special program rates:** General service rates apply until back up fuel system is installed and operational. Contact your heating contractor for any equipment information.

General Service Rates

Fixed Charge: \$30 per month

Summer Rate (June, July & August): 11.917¢ per kWh

Other Months: 10.517¢ per kWh

Power Cost Adjustment (PCA)

A PCA may be assessed on all general service kWhs. If a PCA is assessed, the amount will vary, and will be used to offset the rising costs of providing electric service.

Wellspring Wind and Solar Power

\$0.20-\$2.00 per 100-kWh block.

Grid Access Charge

\$0.00 for the first 3.5 kW AC of distributed generation connected to CLP's distribution system. \$2.03 per kW AC thereafter, with a maximum of \$10 per month.

Residential Rebates & Incentives

Certified HVAC Installed Central Air Conditioning: \$50 for SEER 14.5, 15 and 16+. **For a list of certified HVAC installers, see:** http://216.15.245.52/gre/public_Search.cfm

Certified HVAC Installed Air Source Heat Pump (ASHP):

\$480 for SEER 14.5, \$580 for SEER 15 and \$630 for SEER 16+. **For a list of certified HVAC installers, see:** http://216.15.245.52/gre/public_Search.cfm

Qualified Central Air Conditioner/ASHP Tune-Up: \$25.

Ground Source Heat Pump (GSHP): \$400 per ton.

Mini Split Ductless ASHP: \$300 with fossil fuel heating system, \$500 with electric heating system.

Electric Thermal Storage (ETS) Water Heating: \$400 for a controlled, high efficiency replacement of a non-controlled electric water heater, a controlled, high efficiency new construction electric water heater, or a conversion from 4-hour peak shave to ETS (must meet all requirements of the off-peak program.)

Electric Thermal Storage (ETS) Space Heating: \$50 per kW.

Heat Pump Water Heater (HPWH): \$500 for a conversion from general service electric and for new construction.

Electronically Commutated Motor: \$50.

REPLACEMENT EnergyStar Rated Refrigerator or Freezer: \$75 for replacement or harvest with proof of recycling.) CLP does not offer these rebates for new construction.

Dehumidifiers: \$25 for EnergyStar dehumidifier.

EnergyStar Room Air Conditioning Unit: \$10.

EnergyStar Clothes Dryers: \$25.

EnergyStar Clothes Washers: \$25.

EnergyStar Dish Washer: \$15.

WiFi Thermostats: \$25.

Replacement Dusk to Dawn LED Yard Light: \$30 per fixture.

LED Home Light: \$2 per bulb, not to exceed 50% of the purchase price. Limit 10 bulbs per year.

Important Notice: All rates are subject to change with little notice. Rebates are available while funds last. Please read your monthly PowerLines newsletter or visit www.clpower.com for details on special promotions.
